## POLYOLEFIN FILM COMPOSITIONS WITH PERMANENT ANTIFOG PROPERTIES

## **Abstract of the Disclosure**

Polyolefin films having incorporated therein a compound of the formula  $CH_3CH_2(CH_2CH_2)_aCH_2CH_2(OCH_2CH_2)_bOH$ , where a is 9 to 25 and b is 1 to 10, exhibit superior long lasting fog resistance. The polyolefin films are useful as packaging film for moist products and as a greenhouse film for agricultural applications.
